

**Call for Papers**  
**35th EUROMICRO SEAA CONFERENCE**  
**Software Engineering and Advanced Applications**  
**Patras, Greece – August 27-29, 2009**

**Track on**  
***"Internet technologies, quality of service and applications (ITQSA)"***

**Program Chair**

**Paul Müller**

University of Kaiserslautern  
[pmueller@informatik.uni-kl.de](mailto:pmueller@informatik.uni-kl.de)  
phone +49 631 205 2263

**Rainer Stotzka**

Forschungszentrum Karlsruhe  
[stotzka@ipe.fzk.de](mailto:stotzka@ipe.fzk.de)  
phone +49 7247 82 4738

**Program Committee**

**Hendrik Berndt**

DoCoMo Euro-Labs, Germany

**Torsten Braun**

University of Berne, Switzerland

**Isabel Campos**

Instituto de Fisica Cantabria, Santander, Spain

**Hermann deMeer**

University of Passau, Germany

**Michel Diaz**

LAAS-CNRS, Toulouse, France

**Wolfgang Effelsberg**

University of Mannheim, Germany

**Stefan Fischer**

University of Lübeck, Germany

**Bernd Freisleben**

University of Marburg, Germany

**Thomas Friese**

Siemens AG, Germany

**Gerhard Haßlinger**

T-Systems, Germany

**Frank Kargl**

University of Ulm, Germany

**Marcel Kunze**

Forschungszentrum Karlsruhe, Germany

**David Larrabeiti**

University Carlos III, Madrid, Spain

**Daniel Kofman**

ENST Paris, France

**Prabhat Kumar Mahanti**

University of New Brunswick, Canada

**Laurent Mathy**

University of Lancaster, UK

**Ludek Matyska**

Masaryk University, Czech Republic

**Andreas Mauthe**

University of Lancaster, UK

**Harald Müller**

Siemens AG, Germany

**Marcin Plociennik**

Poznan Supercomputing and Networking Center, Poland

**Erwin P. Rathgeb**

University Duisburg-Essen, Germany

**Ivica Rimac**

Bell Labs, Alcatel-Lucent, USA

**Simon P. Romano**

University of Naples "Federico II", Italy

**Jens Schmitt**

University of Kaiserslautern, Germany

**Matti Mikael Siekkinen**

University of Oslo, Norway

**Ralf Steinmetz**

Darmstadt University of Technology, Germany

**Phuoc Tran-Gia**

University Würzburg, Germany

**Michael Weber**

University of Ulm, Germany

**Call for Papers**

The current inter-networking paradigm, although highly successful as exemplified by the Internet, has become sub-optimal due to its sheer popularity. There has always been an answer to all requirements, no matter whether caused by new applications or technologies. So, over time the formerly simple and clear Internet architecture has become a patchwork of new balconies, workarounds and bypasses. In this conference track we aim to discuss the two mainstreams of network advances: the "Clean-Slate Approach" as well as the "Evolutionary Approach".

Beside future networks also new applications, especially in the field of social networks, are becoming popular. This conference track addresses the technical issues of such and other emerging applications. Decentralized applications for open communities require new solutions for resources provisioning, rating of user generated content and services and for security.

We invite you to contribute to this conference track by submitting proposals in one or more of the categories outlined below. Submissions may address requirement analysis, specific approaches and presentations of first solutions.

**Future Networks**

- Future Internet architectural issues, clean slate and evolutionary approaches
- Cross-layer design and optimization
- Separating of identity and address (locator/ID split)
- Network virtualization
- Network and service management
- Self-engineering communications
- Content based routing
- Security and privacy

**Future Applications**

- Video and audio casting
- Approaches and reliability of collective rating and description of content and services
- Supporting collaborative work
- Distributed resources / distributed computing
- Grid and cloud computing

We encourage submissions demonstrating the potential of new applications by providing case studies, experiments, and quantitative data.

**Submission of Papers**

Prospective authors are encouraged to submit a PDF version of their paper to <http://seaa2009.vtt.fi/>

Papers should not exceed 8 pages (in IEEE/CS proceedings format; 10pt, single-space, double-column) or 6000 words and include an abstract of up to 150 words. A cover page should clearly show the name, mailing address, e-mail address and fax number of the author to contact, as well as the topic areas of the submitted paper. Accepted papers will be published in the conference proceedings by IEEE. Selected papers will be offered the opportunity to appear as extended versions in a special issue of a scholarly journal.

The following signed statement should be included on the cover page:

*"Neither this paper nor any version close to it has been or is being offered elsewhere for publication. All necessary clearances have been obtained for the publication of this paper. If accepted, the paper will be made available in Camera-ready forms by May 26th 2009, and it will be personally presented at the EUROMICRO 2009 Conference by the author or one of the co-authors. The presenting author(s) will pre-register (full fee) for EUROMICRO 2009 before the due date of the Camera-ready paper."*

**Important Dates**

Submission deadline:

**March 16, 2009**

Notification of acceptance:

**April 27, 2009**

Camera-ready paper due:

**May 26, 2009**

**General Information**

This track is an integral part of the EUROMICRO 2009 conference. The conference proceedings will be published by the IEEE Computer Society.
